Water Screening

Provided private landowners and water well owners, the opportunity to gather valuable information about their wells, including information about salinity, nitrates, bacteria, as well as testing for hydro-carbon .

36 Water wells were tested during the fall and Spring water testing campaigns.

Wildlife Fact Check Series

Provided Landowners as well as ranch employees a series of Wildlife related topics, that provided educational opportunity to 50 producers, from Dimmit and Frio Counties. Topics presented included, Deer

Density/Population Dynamics, Setting Realistic Ranch Management Goals, Quail and Cattle, What's the Beef, and General Deer Herd Management.

2017 Dimmit County Mega Clinic

Opportunity for Livestock Exhibitors to learn more about their Livestock Species at this one day clinic, that taught youth about livestock selection, feeding, fitting, general livestock husbandry, as well as showing character in the show ring. 52 individuals were present for this event.

4-H Grows

Dimmit County continues to maintain one of the most active 4-H counties in the District, with youth participation in the traditional livestock show projects, as well as youth participation in Shooting Sports, Photography, Clothing and Textiles, Food Show, Round up, as well as Horse. 146 local

members with youth from Dimmit County Participated at Local, District and State Competitions in 2017, and look forward to continuing the traditions in the years to come.
