

Sept 2019-Dec 2019

Annual Report

LASALLE COUNTY

2019 Regional Water Screening

LaSalle County and surrounding counties were able to conduct a private landowners well water screening. The purpose was to gather valuable information regarding wells. Items that were tested included information about salinity, nitrates, nitrites, bacteria as well as hydro-carbons. 62 samples were collected and tested at the Frio County Agrilife Extension office.

Texas Community Future and Forum (TCFF)

LaSalle County Agrilife Extension office was able to hold a TCFF that took place in October. The meeting was held at the court house by LaSalle Counties Extension Agent. Six key community leaders attended and were able to help the program gain knowledge of specific needs within the county. This process is imperative for extension success.

Annual Report

2019 4H Grows

LaSalle County maintains two very active 4H clubs. Both Cotulla and Encinal 4H have completed their OneDay community service projects. Cotulla 4H collected roughly eighty cozy items for patients at Las Palmas Nursing Home.

Sweat shirts, hats, gloves and blankets were all collected by members. 4H members were then able to hand out all the items. Encinal 4H met at the nursing home in Encinal and sang Christmas carols to all the patients. Both events were a success with approximate fifteen members at each event.

LaSalle County has also seen great success with our 4H shooting sports team. Our club's volunteer, Johnny Gomez, practices with the team every Thursday night. This is sponsored by the American Allegiant. LaSalle County has approximately ten members on the shooting sports team.
